## INTERESTS

Koi fish keeping

Bodybuilding

Cyclin

Sailing and Canoeing

Gardening

# DENIS PROKHODA

## Data and Mechanical Analyst

I've been passionate about numbers since I was a kid. After finishing my career in the U.S. Army as vehicle mechanic I was drawn to business management. The next step was the Data Analytics Bootcamp where I finally combined together my deep knowledge in business management with great interest in numbers. I'm excited about using data to help companies make better business decisions.

## PROFESSIONAL EXPERIENCE

### DATA ANALYTICS APPRENTICE

#### Nashville Software School

01/2021 - 04/2021

Nashville, Tennessee

Full-time intensive program where I developed analytical and business intelligence experience through individual and team projects.

##### PROJECTS AND ACHIEVEMENTS

##### "NASHVILLE CITY CEMETERY" project

[https://github.com/DenisProkhoda/Nashville-city\\_cemetery\\_project](https://github.com/DenisProkhoda/Nashville-city_cemetery_project)

- ▣ Cleaned raw data and found essential information in the dataset by using Pivot tables and various Excel functions;
- ▣ Created marketing materials for promoting interest among tourists and locals in the historical part of the cemetery by leveraging Power Point presentation;
- ▣ Created various visualizations of the datasets in Excel.

##### "THE APP TRADER" project

<https://github.com/DenisProkhoda/app-trader-project>

- ▣ Developed database objects, including tables, views and materialized views using SQL (PostgreSQL);
- ▣ By leveraging SQL and Excel tools, found all necessary information about the most profitable applications and provided their profitability rates;
- ▣ Created a visualization for the client, App Trader, called "The Top 10 List" by using PowerBI.

### Wheeled Vehicle Mechanic (91B)

#### U.S. Army

05/2014 - 05/2020

Fort Drum, New York

91B - *Wheeled Vehicle Mechanic*- primarily responsible for supervising and performing maintenance and recovery operations on wheeled vehicles in U.S. Army

##### Achievements/Tasks

- ▣ Handled all repair work and maintenance to keep vehicles functional at all times;
- ▣ Personally coordinated and oversaw each vehicle modification process;
- ▣ Inspected damaged vehicles to estimate repair labor cost and required parts expense;
- ▣ Delegated and supervised vehicle bodywork to body team for restoration and remediation;
- ▣ Was in charge of military equipment that cost over \$18 million;
- ▣ Received the army achievement medal for outstanding performance during missions;

## EDUCATION

### Data Analytics Bootcamp Certification

#### Nashville Software School

04/2021

Nashville, Tennessee

### BBA Business Administration and Management

#### Rollins College

05/2020

Orlando, Florida
