

CALEB AUTRY

DATA ANALYST & HEALTHCARE PROFESSIONAL

PERSONAL PROFILE

Through my background in biology and healthcare I saw how decisions were being made because of large amounts of data. I learned more about the opportunities in the technology industry and the bootcamp at Nashville Software School was an opportunity to pivot my career to pursuing data analytics. I am excited to utilize technology to solve problems using data.

EXPERIENCE

Data Analytics Apprentice

Nashville Software School | Jan 2021 - present

Full time intensive program to develop skills utilizing analytical tools including: SQL, Python, Tableau, Power BI, and Excel. Using Agile methodologies collaborated on group projects using open sourced data. The program was completed remotely utilizing: Zoom, Slack, and Google Groups.

Capstone Project:

- Capstone Project Title
- TBD. The project can be found at: github.com/CalebAutry.

Behavioral Health Registered Nurse

TriStar Skyline Madison Campus | Feb 2019 - Aug 2020

Mental Healthcare facility that provides behavioral health care services.

- Deescalated patient behavioral emergencies and saved lives
- Initiated improvement of unit's documentation with leadership
- Trained new graduate nurse while being unit charge nurse
- Researched and proposed onboarding material to leadership to improve employee satisfaction

Rehabilitation Technician

NHC Healthcare Lewisburg | Jan 2013 - May 2017

Skilled nursing health care center that provides services from post acute rehabilitation to longterm care.

- Created filing system to keep daily documents organized for therapists
- Increased department efficiency through proactive patient care and effective communication with involved departments
- Worked with insurance companies to advocate for patient needs with initiating and continuing therapy services
