ABOUT ME

I seek furthering my career as a data analyst as this is where my passion lies. My career to date has been as a full stack engineer where I have learned a wide range of technologies in a wide range of environments. Looking at the evolving landscape of computer science what fascinates me the most is Data Analytics. I hope to land a position in a dynamic and challenging role in this budding industry.

SKILLS AND QUALIFICATIONS

Languages: Python, Java, C++, JavaScript, SQL (MySQL, PostgresSQL, Oracle), Elixir
